

Tamper Seal Label 32oz Classic Queenline Jar

NOTE:
Print in 1:1 format
Select "Actual size"

Cut out along the
die cutter
(magenta line)
and test the cut-out
final format on your
honey jar.

Die cutter The cutting contour determines the final format. Cut out along the die cutter (pink line) and test the label on the honey jar.

Final format bleed + 1/8" (0,125") The bleed is a safety margin that should extend + 1/8" (0,125") beyond the final format of the label in order to avoid any flashes.

Safety margin 5/64" (0,0787") Place all important elements within the safety margin, to avoid cutting errors.

Color space Images and graphics must be in CMYK color space. Other colors are automatically converted, this can lead to color variations.

File type and file size Allowed are: PDF, PNG, JPG, JPEG, TIF, AI, SVG or EPS. Maximum of 30 MB per image with at least 200 dpi resolution.

Final format This is the final size of the label.
